EDUCATION

Godavari Institute of Engineering and Technology	April 2024
Master of Computer Application	CGPA:7.46
Elite Degree College	Aug 2022
Bachelor of Computer Science	CGPA:7.91
Elite Junior College	Apr 2019
Board of Intermediate Education	CGPA: 9.2

SKILLS SUMMARY

- **Programming Languages:** Java, JavaScript, Node.js
- **Web Technologies:** HTML, CSS, React, Express.js
- **Database:** SQL, MongoDB, Relational Databases
- **Tools & Platforms:** Microsoft Office Suite (Word, Excel, PowerPoint), Postman API, VScode, Apache tomcat.
- **Cloud Platforms:** AWS
- **API Development:** RESTful APIs

WORK EXPERIENCE

Developer and Technology Job Simulation in Accenture

Description: During the Accenture Developer and Technology Job Simulation, I engaged in a realistic, simulated work environment, replicating the tasks of a junior developer. I just completed Accenture UK's Developer and Technology on Forage. In the simulation I:

- Completed the Developer and Technology Job Simulation where I developed an end to end understanding of the Software Development Lifecycle.
- Conducted in-depth research into emerging technology trends, demonstrating a proactive approach to staying informed about the rapidly evolving tech landscape.
- Created and delivered a compelling PowerPoint presentation analysing and comparing Waterfall and Agile methodologies.
- Designed a custom algorithm using pseudocode and effectively communicated its logic by creating a detailed flow diagram.
- Debugged a program written in Python by fixing syntax and logic errors in the code.

PROJECTS

E-CRIME FILE MANAGEMENT SYSTEM

- Utilized Spring Boot and Spring MVC for backend development.
- Designed and implemented RESTful APIs to handle application communication.
- Developed the front-end using React, ensuring a user-friendly interface for seamless interaction.
- Integrated the backend with a SQL database for secure and efficient data management.
- Conducted unit testing and integration testing to ensure application reliability.

PRIVACY ASSURANCE GUARDIAN

- Implemented Cloud data leak detection system using PHP and JavaScript.
- Integrated cloud platforms (AWS) to ensure scalability and security. Developed key modules to identify and address potential data leaks.
- Enhanced system performance through robust error handling and optimization techniques.

SOFT SKILLS

- Strong Problem-Solving and Analytical Thinking
- Excellent Team Collaboration and Communication
- Adaptability and Quick Learning
- Attention to Detail and Time Management

CERTIFICATIONS

- Database Administration Fundamentals (Microsoft Technology Associate)
- Introduction to Programming using Python (Microsoft Technology Associate)
- AWS for Beginners (Great Learning)
